Wednesday 8th Nov, 2023
Conference Hall Old Government House,
Rayfield, Jos

SABER

State Action on Enabling Business Reforms

SABER is a comprehensive approach adopted by several countries to transform their business regulatory landscape. It focuses on assessing and benchmarking the ease of doing business at the state level, emphasizing the need for sub-national reforms. Under the SABER framework, states undertake various measures to simplify business-related processes, such as obtaining permits, licenses, and approvals. By doing so, states aim to attract investments, promote entrepreneurship, and bolster economic growth within their jurisdictions.

SABER employs a systematic evaluation process, measuring different aspects of the business environment, including the ease of starting a business, dealing with construction permits, accessing electricity, registering property, and enforcing contracts. By identifying areas for improvement and implementing reforms, states can enhance their competitiveness and create an environment conducive to business expansion and innovation.

Chieftaincy Affairs

Ephraim Usman

National Anthem

1

Arise, O Compatriots
Nigeria's call obey
To serve our fatherland
With love and strength and faith
The labour of our heroes past,
shall never be in vain
To serve with heart and might,
One nation bound in freedom,
peace and unity.

2

Oh God of creation,
Direct our noble cause
Guide thou our leaders right
Help our youth the truth to know
In love and honesty to grow
And living just and true
Great lofty heights attain
To build a nation where peace and
justice shall reign.
